## PROGRAM AUGUST 13, 2019

### RYAN GILES CERTIFIED EOS IMPLEMENTER.

Ryan's been an entrepreneur for over two decades, founding or co-founding seven businesses.

EOS®, the Entrepreneurial Operating System, is a complete set of simple concepts and practical tools that has helped thousands of entrepreneurs get what they want from their businesses. Implementing EOS will help you and your leadership team get better at three things:

Vision—getting everyone in your organization 100% on the same page with where you're going, and how you plan to get there

Traction®—instilling focus, discipline, and accountability throughout the company so that everyone executes on that vision—every day

Healthy—helping your leaders become a more cohesive, functional, healthy leadership team

With the help of a Certified EOS® implementer, Ryan and his team implemented EOS® and saw immediate results (30% year-over-year growth, an additional 14 points to the bottom line, and triple the valuation).

After several years, Ryan began to master EOS®, and he began helping fellow business owners with their own EOS® implementations. Realizing that he had found his passion, Ryan sold his business and now helps Owners and Leadership Teams implement these systems to improve their businesses and lives.
